

PERMA-COLUMN PRECAST CONCRETE COLUMNS

Perma-Columns are precast concrete columns that keep wood out of the ground, ensuring your building's foundation will never rot. They combine the economy of post-frame construction with the durability of a concrete foundation. They are constructed of 100% American made 1/4" steel, 3/8" grade 60 rebar, 10,000 psi concrete, and finished with a tough powder coat.

PRECAST CONCRETE COLUMN

	Size	Description	Weight
PC4600	4"x6"	3 5/8" pocket fits 4 x 6 post	135#
