

Everseam® Metal Roofing Panel

Description

The Everseam™ panel has the elegant look of a traditional style standing seam roof, with the strength and durability of high strength 24-gauge steel manufactured in the USA. Everseam™'s durability and aesthetic appearance make it an ideal choice for residential roofing applications.

Advantages of Everseam™ Panels

- Thicker steel eliminates "oil canning" and purlin see-through
- Concealed Fastener System
- Greater snow and wind yields and hail resistance
- Installation over an existing roof
- Energy efficient

UL Ratings

- UL 2218 Class 4 IMPACT RESISTANCE
- UL 790 Class A FIRE RESISTANCE
- UL 580 CLASS 90 UPLIFT

Roofing and Siding Applications

- Architectural
- Residential
